

Leonardo Silva

Programming Technician

EDUCATION

CBTIS #68 – *Technical High School*
Puerto Vallarta, Jalisco.

[July 2017 - July 2020]

Here I studied the technical career in programming; learning (Java, JS, HTML/CSS), MySQL and Linux operating systems: installation, administration, server (Ubuntu) and privileges.

EXPERIENCE

Linux

[[Dotfiles](#)]

My Linux knowledge is installation (disk partitioning and file systems) and user administration (root privileges, superusers, read, write and execute permissions).

Programming

[[Shell scripts](#)]

I have developed, created and modified some shell scripts for my personal use in my Arch Linux work environment for the operation of displaying some menus and applets. For example for screenshots, wifi, style switcher, quicklinks, etc.
